of Clean Power

**100,452 kWh /yr**  
Production

- 160 solar modules
- 2 grid-tied inverters

240,921 Miles  
not driven /yr

50,227 Gallons  
of water saved /yr

223,712 Pounds  
of CO<sub>2</sub> offset /yr

# Go Solar

It's easy to make the switch with  
Technicians For Sustainability

---

## Step 1: Sign Up

We will visit your home to conduct a free site visit, then prepare and review your proposal and contract.

## Step 2: Design

We will get to work, creating a custom solar energy system to match your needs.

## Step 3: Install

Our in-house team will install your solar energy system and coordinate all necessary inspections.
