Meter	Unit of Measure	Next Read Date	Current Read Date	Prior Read Date	Days	Current Reading	- Prior Reading	= Reading Difference	x Multiplier	= Usage
SK16R-1234	kWh	5-11	4-17	3-20	28	7306	5986	1320	1	1320
SK16R-1234	KBH	5-11	4-17	3-20	28	17218	12332	4886	1	4886

kWh = energy delivered from TEP to the customer, in kilowatt hours.
 KBH = energy received by TEP from the customer, in kilowatt hours.

In the kWh row, this is the total amount of energy that TEP has delivered to you this month.
 In the KBH row, this is the total amount of energy that TEP has received from your PV system this month.

NOTE: to find your NET USAGE subtract your monthly KBH usage from your monthly kWh usage
 If you get a negative number that means you have delivered more energy from TEP than you received.

* This excess energy will be listed on your bill as "Credit usage carried forward".
